FEDERAL COMMUNICATIONS COMMISSION  
OFFICE OF THE SECRETARY

Re: Resolution Against FCC Docket 92-235

To the Commissioners:

Enclosed are 12 copies of a resolution drawn up by the Town of Long Lake Fire Department opposing the limitation of radio frequencies available to local government. The new law would be onerous to all emergency medical service departments as well as any department of local government.

Sincerely,

  
M. J. Hosley, Jr.  
Town Supervisor

RESOLUTION BY THE LONG LAKE FIRE DEPARTMENT, JUNE 7, 1993

BY Mr. Martin LaPlant:

WHEREAS, the Federal Communications Commission proposes to limit the availability of radio frequencies available to local government and other current user, and

WHEREAS, the said regulation would render the two-way radio facilities of the Towns, County government, fire departments, water departments and emergency medical services of Hamilton County effectively obsolete, and

WHEREAS, replacement of Hamilton County two-way radio systems would entail prohibitive costs, be it

RESOLVED, that the Long Lake Fire Department hereby records its urgent recommendation to the FCC that the proposed limitation on two-way radio frequencies (docket 92-235) be rejected, and be it further

RESOLVED, that twelve copies hereof be sent to the Federal Communication Commission.

SECONDED by Forrest LaMoy
